International Freedom Battalion's - Press Briefing

“The Middle East has been a bloodbath because of imperialist vampires and exploiters. These same forces brought together the ISIS so that people in the region would bow down to occupation and oppression. The ISIS gangs massacre Christian, Êzîdî, Assyrian, and Muslim peoples. Gangs sell women and children in slave markets and organise massive executions in ways that resemble the centuries-long strategies of their imperialist masters.

The organised peoples' resistance against these forces' desire to destroy their languages, faiths, lives, and identities has been led by the People's and Women's Protection Units (YPG-YPJ) and was successful in places such as Kobanê, Şengal, Til-Hemis, and Serekaniyê.

The Rojava revolution came to the fore of global politics and the YPG-YPJ

resistance is admired and supported by impoverished masses. With international fighters, Rojava became today's Bekaa and Palestine. The Rojava Revolution is the Paris Commune under German siege, Madrid during the Spanish civil war, and Stalingrad during the 2nd Imperialist War

The Rojava revolution has upset the balance of power in neighboring countries, especially Turkey, and has become the heart of world revolution and the beacon of resistance for oppressed peoples.

As a women's revolution, Rojava has strengthened women's will and become the symbol of struggle against patriarchy and global bigotry.

Revolutionaries across the world have turned their attention to Rojava and never hesitated to fight and die for victory here in order to expand the revolution.

Revolutionary forces in Turkey and different parts of the globe have come to Rojava in order to strengthen the revolution and expand the war to the lands they came from.

We fight in Rojava, die as martyrs and carry the banner of resistance...

We fight at the frontline against imperialism and bigots in the region...

We confront the ISIS gangs' brutal attacks on the revolution...

We live the revolution and feel it in our veins and cells...

We are the people in Kurdistan who made the Rojava revolution, the workers, oppressed people, women and internationalist revolutionaries who fight under the banner of the YPG-YPJ...

We are Spanish, German, Greek, Turkish, Arab, Armenian, Laz, Circassian, and Albanian...

We are the revolutionary forces and organisations that have come together from different parts of the world to form the INTERNATIONALIST FREEDOM BATTALION.

All oppressed people, workers, laborers, women, youth, religious groups, ecologists, anti-imperialists, anti-fascists, anti-capitalists, democrats and revolutionaries of the world; we call on you to fight under the banner of the

INTERNATIONALIST FREEDOM BATTALION in order to defend the Rojava revolution and expand it to establish people's fraternity in the Middle East and rest of the world..."
